We never knew the Buchanan party in so demoralized a condition as it is to-day. It is in a perfect state of panic, and almost every one of its candidates in this city is trying to save himself by making special bargains with candidates and parties in the Opposition. We trust that the latter will everywhere rigidly abstain from all such arrangements. Because Administration men are willing and anxious to sell out their candidates, or because the candidates are willing and anxious to sell out all the others on the same ticket with Bemselves, do not be seduced into the unjustifiable commerce. They only desire to put off what they feel to be utterly worthless. Don't trade!

At the very last moment, sundry anonymous slanders are put forth against the union candidate for Sheriff, WILLIAM H. ALBERTSON. One of these calumnies affirms that he sold out his prospective Depulyships to secure his nomination. If that were true, it could not be known to those who assert it; but it is every way false and preposterous. Another lie calls him a gambler! Still another charges him with selling out the State ticket to procure votes for himself! Such inventions only prove the inslice and desperation of his adversaries. We know good men who have been intimate friends of Mr. Albertson for years, and they assure us that a better or purer man does not live. Read the certificate of the merchants who have employed and trusted him as a carman and otherwise, and hasten to rebuke his calumniators

We do not feel justified in closing our Advertising columns against those who use them decorously, though in hostility to our own views; but we have a right here to caution our readers against all manner of anonymous and irresponsible slanders on GEORGE BRIGGS, which are kept affoat in the desperate hope of reflecting Elijah Ward through Republican disaffection. Buchanan had no more obsequious lackey, the Slave Power no more facile tool, the Republicans and Free Kansas no bitterer adversary in the House last Winter. than Elijah Ward, and GEORGE BRIGGS is his opposite. Let no Republican in the District fail to record his vote for GEORGE BRIGGS.

Look out for fraudulent voters at every polling place. The Buchanan office-holders know that they are in a desperate position, and will use the most desperate means to avoid the crushing defeat with which they are threatened. They will send men from poll to poll, to vote wherever they can swear in a ballot, and in this nefarious business we fear that, in some instances, the inspectors of election will connive at the fraud. Let untiring vigilance prevent the crime!

ONE VOTE given or withheld To-Day may decide the political character of the next House of Representatives. ONE VOTE passed or defeated many important measures in the last House. On not less than a dozen divisions in that House, the result turned upon One Vote. Reader! if One Yote should turn the scale disastrously in the next House, be sure that you are not responsible, whether through omission or commission, for that

Anti-Lecompton Electors of the V1th District we believe you are to triumph to-day, but only be cause we believe your efforts will deserve success. Should Mr. McCurpy be beaten by a hundred or two, a dozen of you will say to-morrow, "I could " have drawn out so many votes, if I had supposed they were necessary." Understand, then, today, that they are necessary, and bring them out before noon if possible. You have every probability on your side, but probabilities cannot win without work. Will not One Thousand of you give this day to the contest?

Friends of HORACE F. CLARK! you know that you are bound to win; but let not this relax your energies nor paralyze your exertions. Your majority is likely to be large, but make it a round Five Thousand! It is a luxury to work for a candidate so gallant and faithful as Mr. CLARK has proved himself. Let it be seen by 9 o'clock that Herrick is out of the question. Be satisfied with nothing short of Five Thousand Majority!

Anti-Lecompton men of KINGS! your foes are wholly in your power! No matter if they should patch up a union this morning, it is now too late to save them. Improve your opportunity, then, by rolling up immense majorities in your several Districts for JAMES HUMPHREY, PHILIP HAMIL-TON, LUTHER C. CARTER and your excellent County candidates! And do n't forget to poll every vote for EDWIX D. MORGAN and his colleagues on the State Ticket!

Anti-Lecompton voters of the Vth Congress District! we believe PHILIP HAMILTON will have a large majority in Williamsburgh. The New-York side of your District must not nullify this. Maclay has great official and Navy-Yard influence on his side, but there are votes enough against him to beat him by thousands if they can only be called out and concentrated. Resolve that this shall be done, and do it!

We believe that OWEN W. BRENNAN will poll a large vote outside of his party in the IVth District. The Lecompton vote is so split and mixed up that nothing can be known as to its direction. If all the anti-Lecompton vote can be drawn out and concentrated on Brennan, his election is sure. Try it

Anti-Lecompton men of Weetchester, Rockland and Putnam! JOHN B. HASKIN has deserted at your bands something more than a cold supporthe is entitled to your enthusiastic and persevering exertions. Do not leave your several election dis tricts to-day until you shall have made certain the polling of the last anti-Lecompton vote

MR. WILLIAMSON HAS NOT WITHDRAWN .-Mr. Sickles has industriously circulated a report that Amor J. Williamson, the Anti-Lecompton candidate for Congress in the HIId District, has withdrawn. This is not true. Mr. Williamson will be a candidate until sundown to-day

WASHINGTON, Mond vy. Nov. 1, 1858. Mr. Ward of Georgia, President of the Cincinnati Convention which nominated Mr. Buchanan. has been tendered the Chinese Mission, but has not accepted it yet. He wanted the Mission to Aus tria, and it was arranged that he should succeed Mr. Jackson; but J. Glancy Jones was defeated,

and had to be provided for at once. Glancy Jones will not leave for the scene of his labors until his nomination shall have been confirmed by the Senate, to which no opposition is an-

Mr. Mason has finally agreed to retire from the French Mission in the Spring, cotemporaneously with Mr. Dallas. No successor to either is yet

indicated. Senator Hunter's name was suggested for the atter, but he would accept no office under the Administration. He looks to the Charleston Convention in 1860 for appreciation.

Jerez left here yesterday afternoon for New-York, intending to send his Secretary to Nicaragua to make personal explanations to Martinez, and communicate to him the results of his observation

No contract with Van Dyck has been concluded. The project only has been entertained. It will hardly be consummated now, because Jerez knows that the Government has emphatically refused to recognize the revocation of the other contract, on the ground that a stipulation in it provides for a reference to an umpire in case differences should arise, which has not been proposed or done. An annulment was attempted by a mere rescript, alleging that the contract had not been fulfilled according to agreement. The Administration does not hold itself committed by the Cass-Yrissarri Treaty to a recognition of the White Company specifically, but only to the protection of such American rights as are established. Nicaragua now considers the latter a consequence of the former, and refuses ratification. The President insists as a sine qua non that the treaty must be accepted, as signed and confirmed here, while ignoring all company complications.

The President's proclamation refers to Yrissarri's notice to Nicaraguan emigrants, as proceeding from a regular Minister. He received Jerez as such, and his credentials are now filed in the Department of State. During all the recent conferences here Yrissarri has not appeared or interposed at all, and nearly all the communications have been oral with Jerez.

Trouble between France and Brazil

Cotton I nchanged-Consols 98 1-1298 3-5.

RIVER DE LOUP, Monday, Nov. 1, 1858. The steamship Indian, from Liverpool at nine o'clock on the morning of the 90th ult., has passed

this point on her way to Quebec. The R. M. steamship Niagara, from Boston via Halifax, arrived at Liverpeol at 8 o'clock on the

morning of the 17th. The American ship Pepperell, Capt. Dixey, from New-York for Bordeaux, reports having passed the Austria while on fire, and saw a ship alongside.

The steamship Fulton was to leave Southampton for New-York on the same day as the Indian.

GREAT BRITAIN.

The English news is quite unimportant. Another demonstration against the introduction the Confessional in the Church of England had taken

piace in London. Defensive works of a very formidable nature had been completed at Fort Matila on the Civde.

The London Morning Chronicle says that the Galway line of steamers will certainly get a Government mail subsidy at least equal to that paid the Cunarders. A letter from Valentia says the shore end of the At lantic Cable was about to be laid, and that all the staff at Valentia had got notice to leave the Company on he 30th of November, unless something favorable

Parliament has been further prorogued until nomi-

pally the 18th of November. The French officer who threatened to shoot the Neweastle editor for libeling his father, the French Consul, had been fined five pounds.

The Lordon money market continued very easy, 24 per cent being the minimum rate of discount. The Atlantic Telegraph shares were quoted at £300

to £330. American securities were dull, with but little change p rates.

William Arnold & Sons, hemp manufacturers, London, had failed: Habilities small.

FRANCE.

A difficulty has arisen between France and Brazil in regard to the property of French subjects dying in Brazil. The French Corsul has struck his flag at Pernambuco and appealed to his Government.

The French Embassador at Rome had by direction of the Emperor made a strong representation to the Pope against the recent abduction by the Catholics of the Jewish child at Bologna. The Paris Flour market was firmer. Wheat was

duli. The Provincial Corn market was unchanged. Manufacturers were well employed, but the foreign orders were not so extensive as in former years. A slight rise in spirits is recorded.

It was reported that the French Government had refused to permit England to act either as arbiter or mediator between France and Portugal. The Bourse was declining. The Three per Cents

opened on the 19th at 73f, 95c., and closed at 73f, 10c. PORTUGAL.

The two French men-of-war remained at Lisbon. Two British vessels had also arrived in the Tarus.

RUSSIA.

A gigantic fraud upon the Government had monopolized attention. The Government had paid 12,000,000 of rubles overcharge for constructing the St. Petersburg and Mescow Railroad, the contractors baving charged for a much lenger line than was laid down. The rolling stock was furnished by an American Company, according to distance, including a fearful overlarge on this head also. Many influential persons are compromised by the transaction. The matter

pected to be hushed up.

An insurrection is reported to have occurred at Livey, a Bosnian town of importance on the Servian

frontier: no particulars are given. THE LATEST.

Losnos, O.t. 20, 1858.
The Bombay mails, the news by which has already

been telegraphed, reached London this morning.

The Daily News (City Article) says the funds open flatly on Tuesday, and during the greater part of the day a reduction of one-eighth was quoted. At the close there was more firmness, at fully Monday's rates. The Share market was flat, but closed firmer. £28,000 in gold, during the day, were sent to the Bank. Gold sittances were being made to the Continent, owing to the less satisfactory rate of the exchanges. The discount market remained easy.

The Times (City Article) says that on the Stock Exchange money was procurable at 1 #1; P cent, and in open market the general minimum rate was 2 ? cent. RUSSIA.

The disturbances in the Eastern Provinces of Russia

It says, when the English and French were demanding natural rights for all mankind, Mr. Reed begged a treaty for himself and his nation and that this treaty contains no provision for free tran sit through the country, no provision for the opening of new ports, and no provision for an amended tariff.

Accident to a Steamer-Six Persons

Injured. THE HIGHLANDS, Monday, Nov. 1, 1858. The steamer Alice Price, of the Shrewsbury line, burst her steam chimney, at the Ocean House, at one velock this afternoon. The engineer, two firemen, four pas vergers at d the stewardess were scalded. Our own reporter, writing from the Ocean House, says: "I have just visited the steamer Alice Price, and

find on inquiry of the pilot, that the disaster to the steamer was can sed by the hersting of the steam chimney, from an imperfect sheet of iron. The scalded and injured were. Weeks, the engl-

neer, bodly; two firemen, slightly; four passengers

and the stewardess. "The passengers' names are: Capt. Robbins, Mr. Low of the Phalanx, N. J., Mr. Lufbery and a lady,

all of whose hands were sordied. "The boiler was examined and found full of water. and a passenger says she registered only 25 pounds of steam at the time of the accident. No blame is attached

to any one. She was commanded by Capt. John Borden, a very careful and popular man. The steamer Highland Light, Capt. Henry Parker, came by and took the nided and passengers to New-York."

CORRECTION .- In our list of candidates in the Assembly Districts, published in Monday morning's TRIBUNE, Marcellus Eells appears for the Twelfth Ward in the XVIIth Assembly District. This is a mistake. The Republican candidate in this district is WM. DUNNING, and we trust be will receive a | 11d hearty support.

FIRST ASSEMBLY DISTRICT.-Mr. GEORGE L. GARLICK is the Republican and American candidate in this strong Democratic district. He is opposed by the champion of the emigrant runners, Jacob L. Smith. Let every good citizen give Mr. Garlick a hearty support, and if the divisions of the Opposition remain as they now appear, he will be triumphantly elected.

WILLIAM E. RORINSON, the smash-up candidate for Assembly in the XXth Ward, wishes it understood that he runs to represent, if elected, his constituents generally, and not to serve the ends of any party, clique, or cabal. As his politics have been largely discussed, it is but right to make this explanation. THIRD CONGRESSIONAL DISTRICT. - The Farrington

neeting at the corner of King and Hudson streets last night was a comical affair. Of course the meeting, as well as the candidate, was got up by the friends of the Hop. D. E. Sickles: and one of the first proceedings was to call out Mr. Farrington; but as that gentleman's style of speech was rather of a drawling and uncertain erder, an Irish fellow-citizen stepped forward and said: "Now we have heard Mr. Farrington long enough; just let's give him three cheers, and then I will address you." The cheers were given, and the Irishman proceeded to deliver a speech in favor of the regular Democratic ticket. This enraged a squad of arrington's friends, who thereupon ejected the Irishman, and how they got on afterward we don't know.

Your parents entertain fond hopes of you, and you ought to strive not to disappoint them. They wish you to be good, respected, entheat. You can realize their most sangine hopes, if you firmly resolve to do so, by judicious employment of your time and your facuities. Shus bad company, and all dissipation—its inevitable consequence. Study diligently and perseveringly. You will be surprised at the ease with which you will master branches of knowledge which, at first view, will frighten you. Make honor, probity, truth and principle your invariable guides. Be obedient, and always affectionately respectfully to your parents. Assidiously outlivate virtue and religion, the surest guaranty of happiness, both here and hereafter. In your intersourse with your fellowbeings be firm, but at the same time bland, courteous and obliging. Recognize at all times the paramount right of your country to your most devoted services, whether she treats you ill or well, and never let selfish views or interests predominate over the duties of patriotism.

Fire at the White Moustains.—The large barns and sheds formerly connected with the Pabyan House, at Mount Washington, were entirely consumed by fire on the night of the 18th inst. The barns were filled with hay. The hotel was barned about two years since. ASADEMY OF MUSIC.

Another crowd witnessed the performance of last evening. A fresh character by Mdlle. Piccolomini enables us to speak further of her qualities as a vocal-ist. Whatever superior merit she has does not lis either in voice or execution. We have many better brillia ut treatment it is wanting. A cabaletta is beyond her powers. Then, on the other band, she has a por feetly clear camediation in declamatory receic, and at times makes some points. In evidence of this, we would rite the appirations, so to speak, of the finale of the second set. As for acting, we can say nothing of any part in the Trovatore, for the drama is alike destitute of plot or characterization. It is a bleated mass of inconsequence. There is nothing in it that rises to the level of criticism. We are now speaking of the literary part of the work. Of course, with anybody but the lowest volgar, the literary portion of a musical drama is a matter of importance, and aids or detracts from the scenes in proportion as it is good or bad. Raving, ranling, screaming, swearing, in the lowest style of yellow-covered literature, smitable lowest style of year-covered literature, suitable to such subjects e.g. as "The Bloody floot, or The Corn-Doctor's Revenge," without a touch of nature, may self a debashed, snobbash taste; but with that criticism has nothing to do, except to condemn it. The extemporized, rampant scream ng of the first act, where the intensities of the 6fth are forestalled, proved too much for Signor Stefani, who had a bad cold, and should not have attempted to sing. The effect was injuriously bad. We are glad to find the audienes his what they do not like. Applause

The new baritone, Signor Florenza is scapital artist. In hearing occasionally such a one from Italy, we are reminded that art is not dead there yet, but ingers exist who have the conscience to learn their siness, and not take to shricking after three mouths

or preditable that one who possesses the traditions of the great school should remain silent off the opera boards, and we are glad therefore to find that Madame D'Augri is again before the public.

BRRECH-LOADING ARMS:

At the Fair recently held at Springfield, Massachu-setts, the first premium, a silver medal and diploma, was adjudged to Maynard's breech-loading carbino. This breech-loader is the investion of Pr. Edward Maynard, a resident of Washington, and it is a strong indersement of the merits of the arm that it should

Maynard, a resident of Washington, and it is a strong indorsement of the merits of the arm that it should have won for him so high a testimonial from a committee of practical mechanics, in the heart of the gunnaking region of the United States, and where he was personally a stranger.

The Committee speak of this rife as combining, in an eminent degree, everything to be desired in a good fire-arm. With a charge of forty grains of powder, it is effective for any distance up to 800 or 1,000 yards. It may be readily used with loose ammitton, or ordinary paper cartridge, though it is specially intended to be fired with a metallic cartridge. This cartridge, which is absolutely water-proof, can be used any number of times, and, by means of a leader, can be re-charged, and the ball accurately set with great rapidity. The ball is in form a combination of the cone and cylinder, which insures its axis being always coincident with the axis of the barrel, so that the projectile cannot fail to start true from its bed—a desideration of the first importance in sharp-shooting, as is well known to every expert marksman. For military purposes a caliber of five-tenths of as inch has been adopted, but for sporting it is designed to put up in each case two extra barrels, one of larger, the other of smaller caliber than the military gun. By this arrangement, as the barrel can be datached with tachity from the breech-piece, the sportsman will always be prepared for any kind of gams be may desire to hunt—the largest caliber being equally adapted for small shot or ball.

The weight of this rifle is only about six pounds, and

are to hunt—the largest caliber being equally adapted for small shot or ball.

The weight of this rifle is only about aix pounds, and his so portable that, with all its appendages and 100 rounds of ammunition, it can be packed in a case some twenty inches long, nine inches wide, and three inches deep. The arm is intended to be used with the "Moynard primer," but it admits equally real of the use of the ordinary percuesion caps. The machinery for feeding out the primer is so arranged as to allow the primer to be returned to the magazine, if it be not required, and also to be fed out and returned by hand, in case of any accident to the machinery. The rapidity with which the gun can be loaded and find is likewise quite remarkable. In ordinary hands, twelve discharges per minute are easily made, and with a little practice there would be no difficulty in accomplishing fifteen rounds per minute.

We understand that the patent for these arms is owned by a company composed principally of citizens.

wheel by a company composed principally of citizens of Washington, and that the Massachusetts Arms Co., of Washington, and that the Massachusetts Arms Co., at Chickopee Falls, have contracted for manufacturing 5,000 of them, a small portion of which are now nearly completed, and will soon be offered to the public. Astrial of the grue was made some mosths since in the presence of the Secretary of War, and the results, we are informed, were so satisfactory to him that he directed the purchase of a number of the arms for the use of the regular troops.
